

Summer Opportunities/Pre College 03/22/18

New Opportunities

Unique 3-week **Summer for Success** immersion experience **prepares LD/ADHD students for the transition to college** with personalized, strategic coursework as well as off-campus activities, while living on our campus in Leesburg, FL with other students who learn differently.

Throughout the program, your student will develop the basic academic, social and planning skills that they need in order to become a **confident, independent, successful college student**. They will be able to immediately apply these strategies to their final year in high school and to the college admissions process.

ENCOURAGE YOUR STUDENT TO **APPLY NOW!**

Click **HERE** for a complete, detailed program description and a typical day's schedule. **Scholarships** for the Summer for Success program are available for students in need, but they should apply early for first-come first-serve consideration.

Summer Enrichment Programs at Susquehanna University

Encourage your students to check out our **summer enrichment programs** to build their college résumés. Students spend a week living on our campus with other high-achievers who share their academic interests. We offer 10 exceptional educational opportunities, from Exploring Legal Careers to an Actor's Institute to our nationally recognized Writers Workshop, that give students a taste of college life while helping them develop meaningful skills.

Recruiting future physicians to study for summer programs at Medical College of Wisconsin is a community effort.

The formative summer months allow medical students of tomorrow to learn about medical careers & research opportunities. Thank you for building our community and assisting our team in recruiting top notch candidates for summer enrichment programs. **The future of medicine starts this SUMMER at MCW.**

Back by popular demand, **Lakeside Educational Services**, will again offer this tremendous summer writing workshop for high school students.

Below is information about it, however Lakeside also runs small group and/or one to one, summer writing sessions for younger students as well.

Future Law Enforcement Youth Academy

FBI Milwaukee is partnering with Marquette University to hold our first annual **Future Law Enforcement Youth Academy**.

FLEYA is week long program at the Marquette campus in downtown Milwaukee designed for high school students interested in a law enforcement career. Students will stay in the dorms at Marquette and be engaged in a wide variety of academic, physical and social events throughout the week. Program runs July 16-20.

Applications due by March 30th.

Miami University will again be hosting two sessions of our Summer Scholars Program this July. The Summer Scholars Program provides a rich, early college experience for academically talented rising high school juniors and seniors from across the globe. Students will join an engaged community of learners for an intense, two-week program on Miami's campus exploring a topic of their choice with an acclaimed Miami faculty member. Need-based scholarships are available for the program. More information regarding dates, deadlines, and the application is available at MiamiOH.edu/SummerScholars.

Women in STEM at Stevens: Designing and Creating the Future

At Stevens, women have the tools, the community and the freedom to create the future they want. They're using those resources to change the way the world does business, help find the next cancer treatment breakthrough, build resilient cities prepared for climate change, and so much more. Through design, technology and engineering, Stevens women are defining innovation.

Pre-College Summer Programs - Stevens offers summer programs for rising high school seniors and juniors in Engineering & Science, Business, and Technology, Society & the Arts. Participants gain hands-on experience, connect with industry professionals, experience campus life and attend college-prep workshops. Applications are still being accepted.

Previously Posted

Susquehanna University has some outstanding weeklong workshops this summer for students who want to develop their skills in an academic area while living on a college campus.

[All of the programs](#) are taught by Susquehanna faculty and limited in size to ensure the best experience for every student. **I hope you will pass along this information to families who are looking for an academically challenging, yet fun week for their student(s) this summer.**

Most offer a discount prior to April 1.

Actor's Studio

Experience university-level professional theatre training and immerse yourself in artistic collaboration. Take the spotlight for bare-bones monologues and compelling small-cast scenes under the guidance of experienced professional actors and directors. (June 24–30)

Choral Institute

Immerse yourself in music and improve your musicianship, vocal technique and choral performance skills in group and private settings. Acquire transferable skills: independence, creativity, problem-solving and teamwork. (July 1–7)

Exploring Legal Careers

Participate in a Mock Trial and play out the role of prosecutor, defendant or witnesses in

Summer Opportunities/Pre College 03/22/18

a criminal case.

Interact with attorneys and judges to learn what a legal career involves and whether or not it's a good fit for your interests. (June 24–30)

[i-Engineer](#)

The faculty will help you think analytically and look beyond the obvious while deepening your understanding of astronomy, physics, math and team-building psychology. You'll strengthen your mental muscle and improve your problem-solving skills. (July 8–14)

[Leadership Institute for Entrepreneurship\(LIFE\)](#)

Find out what it takes to become a successful entrepreneur in this fast-paced, business boot camp. Run your own virtual business in a simulated entrepreneurial setting guided by expert faculty. (June 24–30 and offered again August 5–11.)

[Publishing & Editing Institute](#)

Get hands-on experience producing and marketing a book in a team-centered experience featuring workshops, strategy sessions and industry-leading guest speakers. Work on your projects in The Letterbox, our publishing and editing lab. (June 24–30)

[Stream Ecology Institute](#)

Learn the basics of water quality, macroinvertebrate and fish sampling, and identification. You'll get plenty of hands-on experience using the latest equipment and methods employed by aquatic ecology professionals. (July 8–14)

[Summer Writers Workshop](#)

Live the life of a practicing writer! Nationally recognized writers will help you to hone your craft. Named one of the 500 best summer programs in the world by Princeton Review Press. (July 22–28)

[Wall Street Susquehanna](#)

You'll get a first-class introduction to business and investing during a fast-paced week in the life of a Wall Street analyst. You will learn to use one of the Bloomberg terminals in our investment laboratory, rarely available to high school students. (June 24–30)

[Wind Ensemble Institute](#)

Want to become a better musician? Polish your technique in private lessons with expert faculty and improve your musicianship playing in chamber groups. (June 24–30)

We hope to see some of your students on campus this summer! Space is limited; applications are [being accepted now!](#)

Summer Opportunities/Pre College 03/22/18

The [**New England Center for Investigative Reporting**](#) helps students gain hands-on experience and develop personal networks to benefit them in college and beyond. Our [**Pre-College Summer Journalism Institute**](#), based at the Boston University [**College of Communication**](#), provides students an opportunity to improve their journalism skills and develop as storytellers. Our three, two-week workshops begin on June 25 and run through August 3. For more information about our program, [**visit our website**](#).

[**Marian's CSI Camp**](#) is open to high school students who will graduate in 2019 or 2020. **The camp registration fee is \$160**, which includes meals and snacks throughout the camp, as well as a camp t-shirt. The camp will feature sessions taught by faculty and area professionals, and will include hands-on learning opportunities.

The camp will run from 9am - 4:30pm on Monday, June 18 and Tuesday, June 19. The camp will conclude after the session on Wednesday, June 20 from 9am - noon.

All participants who attend the camp, then apply and are admitted to Marian University will receive an annual \$1,000 scholarship.

There are amazing opportunities awaiting your students at [**UW-Madison**](#) this summer! We host a variety of summer programs for high school students interested in math, science, technology, and engineering:

The College of Engineering hosts **Engineering Summer Program (ESP)** for current sophomores and juniors from June 16 – July 27, 2018. ESP is a 6-week residential program designed to engage students who would like to explore careers in engineering.

Two other summer programs offered at the university are six-day residential camps. For current freshman, sophomores, and juniors, we hold a program called **ProCSI** (pronounced “proxy”) that runs from July 15 – 20, 2018 where students get to have fun discovering how important computer science and engineering are to modern research. Learn more at [**http://outreach.sbel.wisc.edu/ProCSI/**](http://outreach.sbel.wisc.edu/ProCSI/). For current female sophomore and juniors interested in engineering, the Society of Women Engineers (SWE) hosts **Engineering Tomorrow's Careers (ETC)**, a camp that runs from June 17 – 22, 2018. This entirely student-led camp gives girls the opportunity to explore various disciplines within engineering, meet other young women with similar interests, and learn about college-life. Learn more and apply for the 2018 ETC at [**https://uwetccamp.wordpress.com/**](https://uwetccamp.wordpress.com/).

MIAD - THROUGH THE LENS

Summer Opportunities/Pre College 03/22/18

This advanced course pays critical attention to the ways photography, video, and film impact the contemporary artist. Through explorative assignments, students make use of lens-based tools to address a wide scope of concerns: from the impact of social media, to the overt language of advertising, to the poetics of the fine-art exhibition.

Students must provide their own lens-based equipment (cell phones are acceptable).

February 24 - March 31, 6 sessions

Tuition: \$225

MIAD – Advanced Studio Printmaking. July 9 – 27. Earn 3 college credits. Complete information and downloadable forms available at: miad.edu/precollege.

Scholarship application deadline – April 2

University of Dayton

ENTREPRENEURSHIP 101 – June 17-29

Rising high school juniors, seniors and first-year college students will learn more about entrepreneurship, the idea-generation process, elevator pitches and more. Through engaging lectures and class activities, site visits and guest speakers, students will have the opportunity to earn three credit hours and compete for up to \$10,000 in UD scholarship dollars in an elevator pitch competition — all while living on campus and experiencing life in Dayton. Learn more at go.udayton.edu/entrepreneurship101.

LEADERSHIP 101 – June 17-29

What makes someone a great leader? Open to rising high school juniors, seniors and first-year college students, this two-week experience will help students gain an understanding of the foundations of leadership, assess their leadership behaviors and preferred leadership style, discover the five practices of exemplary leadership and create a personal leadership development plan. This highly interactive session includes extensive discussion and collaborative exchange of ideas, leadership assessments, class and individual exercises, guest speakers and site visits.

Learn more at go.udayton.edu/leadership101.

Penn Engineering – This summer, send us your brightest and most motivated students to take their STEM talents to the next level! Penn Engineering offers a unique program for a selective group of high school students (rising 10th – 12th graders) to experience rigorous and challenging college-level coursework. Our three-week Engineering Summer Academy at Penn or ESAP combines sophisticated theory with

Summer Opportunities/Pre College 03/22/18

hands-on practical experience in cutting-edge technologies, Students can earn college credit in one of our six programs:

Biotechnology, Computer Graphics, Computer Science, Complex Networks, Nanotechnology and Robotics.

Program runs July 8th thru July 28th.

See Flyer in Student Services if interested.

Rutgers Pre-Engineering Summer Academy – This intensive one-week certificate program will introduce students to a variety of engineering areas including: Aerospace, Biomedical, Civil, Computer, Electrical, Forensic and Mechanical. Contact Cbarry@admissions.rutgers.edu for more information.

MIAD – “Where Passion finds Purpose” Oil Painting - Summer Program Dates:

Core Studio (non-credit) – July 9 – 20

Advanced Studio (3 college credits) – July 9 – 27
