EXAM WEEK

Nicolet is adjusting how exam week is conducted to provide teachers flexibility to meet the needs of students and to provide authentic, timely assessments that will match our remote instructional model. This semester, teachers have flexibility to offer a range of assessments or activities during “exam week.” Some of the options may include:

- Final unit assessment
- Project-based assessment
- Presentation
- Final opportunity to prove proficiency
- Socratic Seminar
- Completing the final draft of research paper
- Performance-based assessment

In the past, final exams would count 20% toward the final semester grade. These assessments will be counted towards the semester grade the same as other summative assessments have been for first semester. Each teacher will communicate expectations for their individual classes.

IMPORTANT INFORMATION

- Students may not exempt their assessments.
- Students must be on time for their designated assessment period.
- Missed assessments will be made up during the afternoon at the teacher’s discretion.
- Assessments may not take the entire scheduled period and student may be released early.
